Problems that upset you ah, don't you know
E              A              E                    A
Ev'rything's al-right, yes, ev'rything's fine
          E                      A        E          A
And we want you to sleep well to-night
           E                      A       E          A
Let the world turn without you to-night
        G          A            D                    E                 A
If we try we'll get by so for-get all about us to-night.
                                              Ev'rything's al-right, yes,
E                        A
ev'rything's al-right, yes

E                                 B7
Sleep and I shall soothe you, calm you and anoint you
C#m                              A
Myrrh for your hot forehead ah, then you'll feel
E              A              E                      A
Ev'rything's al-right, yes, ev'rything's fine

And it's cool and the ointment's sweet        For the fire in your head and feet
            E                    Am
Close your eyes, close your eyes
        Em              Am            E
And re-lax think of nothing to-night.          A              E              A

Judas:   Woman your fine ointment - brand new and ex-pensive
              Em                  C              Em

         Three hundred silver pieces or more.
              Am                  D         G               C
