

The Space Girl's Song

Ewan MacColl & Peggy Seeger 1952

Dm **A** **Dm** **F** **A** **Dm**
My mama told me I should never venture into space, But I did, I did, I did,

Dm **A** **Dm** **F** **A** **Dm**
She said no terrain girl could trust the Martian race, But I did, I did, I did,

Gm **Dm** **Gm** **F** **A**
A rocket pilot asked me on a voyage to go, And I was so romantic, I couldn't say no

Dm **A** **Dm** **F** **A** **Dm**
That he was just a servo robot how was I to know? But I did, I did, I did,

Dm **A** **Dm** **F** **A** **Dm**
She told me never venture out a-mong the aster-oids, But I did, I did, I did.

Dm **A** **Dm** **F** **A** **Dm**
She said the Milky Way was something to a-void, But I did, I did, I did.

Gm **Dm**
She said that Venus was too hot and Saturn not much fun
Gm **F** **A**
And bug-eyed monsters tended to be just a trifle dumb.

Dm **A** **Dm** **F** **A** **Dm**
She said I'd need a blaster and I'd need a freezer gun, And I did, I did, I did.

Dm **A** **Dm** **F** **A** **Dm**
My mama told me never trust a space engin-eer, And I did, I did, I did.

Dm **A** **Dm**
She said freefall and superdrive would surely cost me dear
F **A** **Dm**
And they did, they did, they did.

Gm **Dm**
I've been as far in hyperspace as anybody can,

Gm **F** **A**
I've travelled through the time warp in the Psycho Plan.

Dm **A** **Dm**
They say a gal must travel for to find her super-man

F **A** **Dm** **F** **A** **Dm** **F** **A** **Dm**
And I did, I did, I did. I did, I did, I did. I did, I did, I did.
