

The Space Girl's Song

Ewan MacColl & Peggy Seeger 1952

Gm **D** **Gm** **Bb** **D** **Gm**
My mama told me I should never venture into space, But I did, I did, I did,
Gm **D** **Gm** **Bb** **D** **Gm**
She said no terrain girl could trust the Martian race, But I did, I did, I did,

Fm **Cm** **Fm** **Eb** **G**
A rocket pilot asked me on a voyage to go, And I was so romantic, I couldn't say no

Gm **D** **Gm** **Bb** **D** **Gm**
That he was just a servo robot how was I to know? But I did, I did, I did,
Gm **D** **Gm** **Bb** **D** **Gm**
She told me never venture out a-mong the aster-oids, But I did, I did, I did.
Gm **D** **Gm** **Bb** **D** **Gm**
She said the Milky Way was something to a-void, But I did, I did, I did.

Cm **Cm**
She said that Venus was too hot and Saturn not much fun
Cm **Bb** **D**
And bug-eyed monsters tended to be just a trifle dumb.

Gm **D** **Gm** **Bb** **D** **Gm**
She said I'd need a blaster and I'd need a freezer gun, And I did, I did, I did.
Gm **D** **Gm** **Bb** **D** **Gm**
My mama told me never trust a space engine-er, And I did, I did, I did.
Gm **D** **Gm**
She said freefall and superdrive would surely cost me dear
Bb **D** **Gm**
And they did, they did, they did.

Cm **Cm**
I've been as far in hyperspace as anybody can,
Cm **Bb** **D**
I've travelled through the time warp in the Psycho Plan.

Gm **D** **Gm**
They say a gal must travel for to find her super-man
Bb **D** **Gm** **Bb** **D** **Gm** **Bb** **D** **Gm**
And I did, I did, I did. I did, I did, I did. I did, I did, I did.
