---[Verse 1]-------------------------------------------------
     Dm                    Dm              Gm         Gm
They made up their minds And they started packing
     A7              A7                Dm       Dm
They left before the sun came up that day
   D7         D7            Gm        Gm
An exit to e-ternal summer slacking
     Dm                       A7                  Dm        Dm
But where were they going with-out ever Knowing the way?

---[Verse 2]-------------------------------------------------
     Dm              Dm                  Gm        Gm
They drank up the wine     And they got to talking
     A7              A7                Dm       Dm
They now had more im-portant things to say
   D7              D7              Gm        Gm
And When the car broke down they started walking
Dm                       A7                  Dm      C
Where were they going with-out even knowing the way?

---[Chorus]--------------------------------------------------
   (C)              F                      C
Any-one can see the road that they walk on is paved with gold
   Dm                      A7
 'n It's always summer They'll never get cold
         Bb                   F                 C       C
They'll never get hungry They'll never get old and grey
(C)                  F                 C
You can see their shadows wandering off somewhere,
     Dm                       A7
They won't make it home, But they really don't care
     Bb                    F                C       A7   A7
They wanted the highway They're happier there to-day, to-day

---[Verse 3]-------------------------------------------------
     Dm              Dm                  Gm        Gm
Their children woke up     And they couldn't find them
     A7              A7              Dm       Dm
They left before the sun came up that day
   D7              D7            Gm      Gm
They just drove off and left it all be-hind'em
     Dm                       A7                  Dm        C
But where were they going with-out ever Knowing the way?
