Just as much as you wonder 'bout me bein' in this place  
Just as much as you wonder 'bout me starin' back at you (Yeah!)  
Just as much as you wonder If I mean just what I say (Yeah!)

**D E D A D E D A**  
That's just how much I marvel At the lameness on your face  
That's just how much I question The corny things you do  
That's just how much I question The social games you play

You rise each day the same old way And join your friends out on the street  
You paint your face and then you chase To meet the gang where the action is  
You told your Mom you're stoked on Tom And went for a cruise in Freddie's car

**A G B A A G B C#m**  
Spray your hair And think you're neat I think your life is incomplete  
Stomp all night And drink your fizz Roll your car and say "Gee whiz!"  
Tommy's asking Where you are You boogied all night in a cheesy bar

**D C#m B A F# G C A B A C D**  
But maybe that's not for me to say They only pay me here to play  
You tore a big hole in your convertible top. What will you tell your Mom & Pop?  
Plastic boots and plastic hat And you think you know where its at?
